BORING BRANDS

NOT BORING, JUST PRACTICAL...

Design school is a fantastic place to learn beacuse you have so much control over your projects and assignments.

Many times as a practicing designer projects are assigned to you that aren't as inherently fun or cool as things like a food truck or brewery. Designers often say that these projects only pay the bills or are "boring".

Everyone can make a cool food truck or coffee brand...

It takes a lot more thought to bring design and new life to a plumber... They are really neither of these things and are instead unique challenges with a different set of rules.

For this assignment you will be assigned to rebrand a "boring" company and give it a new unique brand that turns on its head the ideas associated with that industry.

TURN

Hi, we're Supertrash. A small, family-run collection service with a big purpose; to help divert waste from landfill through circular solutions. This involves repurposing, recycling and reimagining what we do with waste.

 Since March 2012 we have saved over 5.7 million kgs of waste from going to landfill.

We collect compost, recycling, cardboard, garden and general waste. We work with both commercial and residential customers, and can also offer one-off collections.

Word love to take care of your waris, and help your business divert more waste from landfill.

Let's talk trash — vaid Supertrashing, or call us on 0800 932 667.
